Group meeting

Sound quality and sound level for lecture room

It conveys clean and clear tone of voice.

No directional nature of sound

Sound spreads out in whole space,
naturally and effectively.

Howling suppressor applied

No unpleasant noise is generated in mike and speaker
and with no delay time, the sound is clear.

Good grip feeling and convenient usability with simple design

Being held in one hand, it runs with only one button control.

All-in-one design to carry

Without any complex cable, it is convenient
to carry and keep.

Rigid material and excellent durability

Even if dropped, it is not damaged or easily broken
for portable use.

Available simultaneous use with no crossing problem in the same space

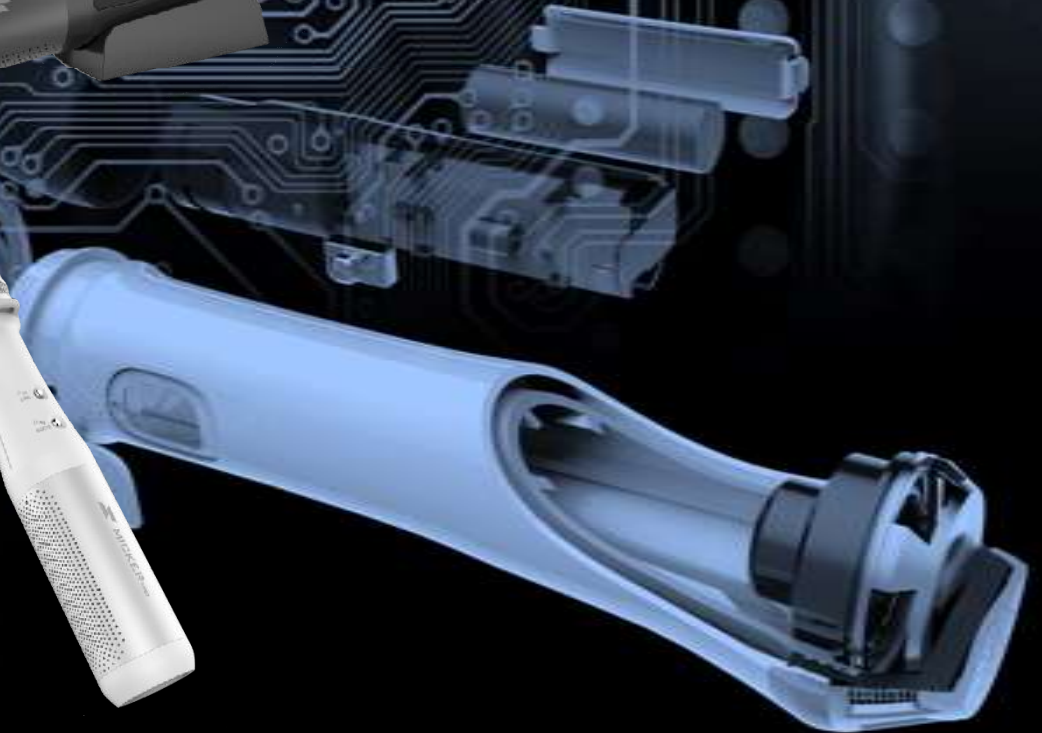

There is no crossing problem which can often occur
in the wireless products and several people can use
it at the same time.

Protection circuit mounted lithium ion battery and power saving mode

Safe and long-lasting battery is included and with
automatic power saving mode, long time use is possible.

UX + Technology

Howling suppression technology, no crosstalk,
no cable connection complexity
Combines technology with UX design

Cradle Recharging

Recharging is much more convenience
by applying a charging cradle!
Just place Micker Pro on cradle!
